Greetings from the Waldorf Early Childhood Association of North America!

This Membership Handbook for Early Childhood Teacher Training Programs and Institutes is a guide to our work together in association throughout North America. The Handbook describes the history, goals and activities of our Association, our Shared Principles for Early Childhood Teacher Training, and our WECAN Membership Path for training programs and institutes.

We invite you to join us as we engage in a process of self-reflection and collaboration that will ultimately strengthen and deepen the early childhood teacher training programs and thus the care and education of young children in Waldorf settings throughout North America.

Our WECAN Shared Principles for Early Childhood Teacher Education are the expression of our ideals and practices in training Waldorf early childhood educators. They include descriptions of the following:

- Purpose, Goals and Philosophy
- Educational Program and Faculty
- Governance, Administration and Finances
- Relations with the wider Waldorf Early Childhood movement.

The Shared Principles have been developed by the WECAN Early Childhood Teacher Education Committee, which has been active for several years here in North America, in collaboration with the International Association for Steiner/Waldorf Early Childhood Education (IASWECE) Working Group on Early Childhood Training. They are intended as recommendations and guidelines rather than as strict requirements or prescriptions, and it is understood that there is a wide range of possible approaches to the training of Waldorf early childhood educators. At the same time, they represent an effort to uphold the quality and integrity of Waldorf early childhood teacher education and thus the vocation of Waldorf early childhood education.

For Full WECAN Member Institutes and Training Programs, the Shared Principles are an expression of the ideals and practices that allow them to be seen as representatives of Waldorf early childhood teacher education here in North America and around the world. Individuals who complete such training courses in Full Member institutes are generally recognized throughout the worldwide Steiner/Waldorf early childhood movement as “Waldorf trained”.

For Associate WECAN Member Institutes and Programs, the Shared Principles provide guidelines for the development of training activities and the organizational health of the training program.

Our WECAN Membership Path for Early Childhood Teacher Education Programs and Institutes is intended to foster a culture of self-study, peer review and collaboration that will strengthen and deepen our work. This Handbook outlines the benefits and responsibilities of
membership, and the steps required to fulfill the responsibilities of organizational membership for our Associate and Full Member training programs and institutes.

The Membership Path offers opportunities for reflection and collaboration within and among training centers that will serve the training programs and therefore also the quality of the care and education of young children throughout North America.

The Membership Handbook and all relevant application forms and materials are available on the WECAN website www.waldorfearlychildhood.org.

We look forward to our work together in association!

With best wishes,

Susan Howard

Introduction to WECAN
The Waldorf Early Childhood Association of North America

The Waldorf Early Childhood Association of North America (WECAN) was founded in 1983, originally under the name of the Waldorf Kindergarten Association of North America. Its administrative office is in Spring Valley, New York.

WECAN’s mission is to foster a new cultural impulse for the work with the young child from pre-birth to age seven. Based on an anthroposophical understanding of human development, WECAN is committed to protecting and nurturing childhood as a foundation for renewing human culture. WECAN accomplishes this mission in a number of ways, including but not limited to the following:

- Encouraging, supporting, and offering resources to professionals working with young children based on the educational philosophy of Rudolf Steiner, through conferences, lectures, seminars, publications, and other means;
- Supporting the development of Waldorf early childhood centers, kindergartens, preschools, home programs, and training centers through a path to membership involving self-study and peer review;
- Providing forums for the exchange of information and experience among those drawing their inspiration from the work of Rudolf Steiner in their work with young children through newsletters, regional gatherings, and other forms of communication;
- Interacting with other educational organizations representing a wide spectrum of ideas about early childhood education;
- Encouraging and supporting research regarding Waldorf early childhood education and the development of the young child, and publishing the results of such research;
- Working together with other organizations that share similar goals and ideals, such as the Association of Waldorf Schools of North America (AWSNA), the International Association for Steiner/Waldorf Early Childhood Education (IASWECE) and the Pedagogical Section of the School of Spiritual Science.

Membership in WECAN is open to individuals who support the work of the Waldorf Early Childhood Association, and to early childhood programs, kindergartens, child care centers, teacher training centers, and related programs committed to the ideals and practices of Waldorf early childhood education and anthroposophy, the philosophy developed by Rudolf Steiner (1861-1925), and who wish to support and contribute to Waldorf early childhood education in North America. In 2016-17, WECAN membership included more than 500 individual members and over 200 organizational members—including schools, home programs, and 13 teacher education institutes—throughout North America.

Our activities on behalf of our members include:

• Publication and distribution of study materials for early childhood educators and parents through WECAN Books

Activities in relation to teacher education include the following:
  o Colloquia and gatherings of North American Waldorf early childhood trainers to share experiences, research and questions

  o Opportunities for teacher trainers and prospective students to meet at WECAN conference job fairs.

These activities are made possible through grant funding (Waldorf Educational Foundation, Waldorf Schools Funds, and Waldorf Curriculum Fund), individual donors to WECAN, WECAN Membership contributions, and through collaboration among the following groups:
  o The WECAN Early Childhood Teacher Education Committee
  o The circle of North American Waldorf early childhood teacher educators
  o The AWSNA Teacher Education Network (TEN)
  o The International Association for Steiner/Waldorf Early Childhood Education (IASWECE) and its Working Group on Training
  o The Pedagogical Section in Dornach
  o The WECAN Board and Staff.

The Waldorf Early Childhood Association of North America is a tax-exempt not-for-profit organization.
The Training of Waldorf Early Childhood Educators: WECAN Expectations

For early childhood educators who carry responsibility for the care and education of the child from birth to school entrance, completion of a Waldorf early childhood teacher education program recognized by WECAN is expected.

Recognized Waldorf early childhood teacher education programs offer a minimum of 400 class contact hours, plus mentored teaching or extensive practicum or internship experiences. The Shared Principles for Early Childhood Teacher Education describe the course content and criteria for recognized Waldorf early childhood teacher education programs.

This is the expectation for lead nursery, pre-school, and kindergarten teachers, lead extended care providers, and parent-child class leaders in Waldorf schools and early childhood settings. Additional specialized professional development coursework in birth to three/child care is expected for those working in lead positions with children under the age of three. This expectation is consistent with the guidelines of the International Association for Steiner/Waldorf Early Childhood Education (see www.iaswece.org).

For assistant teachers, introductory coursework of at least one week (or its equivalent) in Waldorf early childhood education is expected; for those who intend to continue in this position, further coursework is expected, and a full WECAN-recognized training is recommended (but not required).

Ongoing participation in mentoring, evaluation, conferences, deepening courses, and workshops is an essential part of the continuing professional development of the Waldorf early childhood educator.

**WECAN Path to Membership for Early Childhood Teacher Education Programs and Institutes**

WECAN invites and encourages early childhood teacher education programs to become organizational WECAN members. The WECAN organizational Path to Membership leads from Associate Membership to Full Membership.

We encourage those who are planning to offer a new early childhood teacher education program or add an early childhood teacher training within an existing Waldorf training institute to contact Holly Koteen-Soule, WECAN Teacher Education Coordinator, so that we can offer advice and support and discuss the WECAN Path to Membership.

**WECAN Membership Eligibility for Early Childhood Teacher Education Programs and Institutes**

The purpose of the WECAN Path to Membership for Early Childhood Teacher Education Programs and Institutes is to ensure that the principles of Waldorf Education are upheld and that the graduates are prepared for their professional work as Waldorf early childhood educators.

WECAN accepts as applicants early childhood teacher education programs and institutes that are working with the WECAN Shared Principles for teacher education and whose courses and activities are based on the ideals of Waldorf early childhood education.

WECAN membership is not open to programs that identify with a different or additional set of educational principles and practices. Such identification will be evident on the program website or other program materials in one or more of the following ways: the name of the program, the tagline (2nd line) of the program name, the text describing the program.

This policy is intended to avoid confusion on the part of prospective teachers, Waldorf schools, and the general public, in regard to the distinctions between Waldorf early childhood teacher education and other approaches to teacher education that have separate identities and their own guiding principles. It is important to WECAN that our members are working with the WECAN Shared Principles and that this orientation is foremost and visible to the public.

AWSNA/WECAN Guidelines for the WALDORF, WALDORF-INSPIRED, RUDOLF STEINER, and STEINER Trademarks and Service Marks (Marks)

Updated August 22, 2017

Background
WALDORF, WALDORF-INSPIRED, RUDOLF STEINER and STEINER are internationally known Marks for a specific method of education. In the United States the Association of Waldorf Schools of North America (AWSNA) is the owner of the WALDORF, WALDORF-INSPIRED, RUDOLF STEINER and STEINER Marks.

The WALDORF Mark was first used in Germany in 1919 with the start of the first Waldorf School. The Mark has been used in the United States since 1928. As the work of Rudolf Steiner and WALDORF education spread, RUDOLF STEINER and STEINER became Marks associated with Waldorf education. The Bund der Freien Waldorfschulen (Bund) is the worldwide owner of the WALDORF, RUDOLF STEINER and STEINER Marks outside of the United States. The BUND and AWSNA, as stewards of the Marks, work closely together for the protection of the Marks and the precise methods of education and teacher training which the Marks have come to symbolize. AWSNA has agreements for membership and use with the trademark/service mark holders in Canada and Mexico.

Who is allowed to use the Marks?
Only members of the Association of Waldorf Schools of North America or stand-alone early childhood programs which are Full Members of the Waldorf Early Childhood Association of North America (WECAN) and do not intend to add grades are authorized to use the Marks as trademarks, service marks or trade names in accordance with the AWSNA and WECAN Shared Principles and Paths to Membership.

• Only an AWSNA or Full WECAN member may use the Marks in its name such as:
  - The Waldorf School of Mendocino County
  - Rudolf Steiner School of Ann Arbor
  - Eugene Waldorf Teacher Education

• Only an AWSNA or Full WECAN member may describe its school or curriculum as a Waldorf School, e.g.:
  - Spindletwood is a Waldorf early childhood program
  - Rudolf Steiner College is a Waldorf teacher education institute

What references can be made to Waldorf, Waldorf-Inspired, Rudolf Steiner, and Steiner by those who are not AWSNA or Full WECAN members?
AWSNA and its members appreciate and encourage the adoption of aspects of the methodology and pedagogy of WALDORF education into other methods of education and school settings, both public and private. However, schools that do not meet the criteria for a Waldorf education as members in AWSNA may not call themselves “Waldorf” schools or use the Service Marks to describe the method of education.
• Non-members of AWSNA may only use the Marks in text to make factual statements about their methods of education or their teachers. For example, a non-member may say, in text:
  - ABC School’s curriculum is inspired by Waldorf education.
  - ABC School follows many of the teachings of Rudolf Steiner
  - 12 of our teachers at ABC School have received training from member institutes of AWSNA

• Non-members of AWSNA may not use the Marks to describe the school or program, including in ads and directories (unless stated as above, in text). For example but not limited to:
  - describing part of a program of the school as a Waldorf program
  - in the name of the school
  - as part of a domain name
  - as a tag line to the name of the school, such as “ABC School, a Waldorf-Inspired School”.

There are some common phrases that are likely to lead to confusion. For instance, "Waldorf teacher" is ambiguous. The phrase could refer to a teacher who is fully certified from a Waldorf teacher education institute. But it could have a variety of other possible meanings, such as a teacher who had merely read some of the writings of Rudolf Steiner or who had taught in a Waldorf school. Because of the different possible meanings of "Waldorf teacher," it is preferable to use "Class teacher" or "Handwork teacher," or other such specific descriptions.

Why is protection of the mark “Waldorf” important?
The purpose of protecting a mark is to ensure clarity of the meaning for the “public”. The intention of stewarding the marks “Waldorf,” “Waldorf-Inspired,” “Steiner,” and “Rudolf Steiner” is to keep the meaning clear on behalf of this education.

Note: These guidelines include examples of misuses, as well as permitted usage, of the terms WALDORF, WALDORF-INSPIRED, STEINER, and RUDOLF STEINER. They are not a definitive statement of all possible misuses, and the Association may modify them from time to time as necessary.

If we have questions, whom should we contact?
If there is any question about whether the Mark usage is correct, please contact Melanie Reiser, Leader of Programs and Activities at mreiser@awsna.org.
